

Got Love Handles? Freeze Away the Fat with Zeltiq!

Endless parties, holiday cookie platters and a little much egg nog may have found you with an extra "gift" that you didn't ask for this past holiday season - unwanted fat. Now, there is a better way to get rid of this fat without "sweating to the oldies". It's called Zeltiq! Discovered by Harvard Scientists, Skin Laser & Surgery Specialists of New York and New Jersey (SLSS) is one of the first centers in the nation to have this unique technology.

Ask the Expert

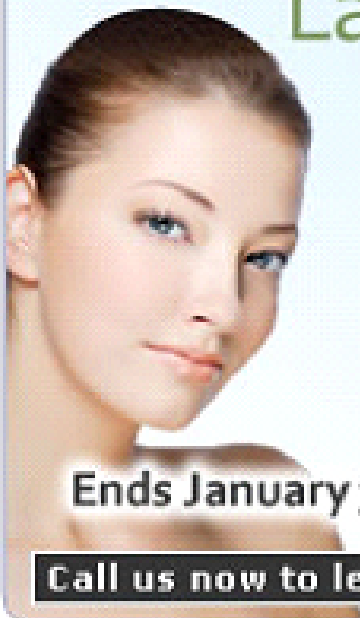

Click here to ask the
doctor a question!

Question: I don't have a lot of time to take work off. Is there a laser peel that can be done without much downtime?

At SLSS we have pioneered the weekend laser peel. This treatment is a combination of two laser treatments...It is specifically tailored to your skin and amount of downtime. Since this treatment is tailored to the amount of downtime you have, you will be back to normal (minus some wrinkles and fine lines!) in 1 - 4 days. This is an excellent treatment for anyone with limited downtime.
